"No. I gave the bond, and that was the end of it."

The witness repeated the statement that she had never paid a cent of money to the police.

Mr. Goff tried to get her to admit that she had said she "didn't care shucks" for the Protestant Hible, and if she swore on that she could say anything. She finally said she might have said so, but she had sworn to tell the truth and meant to do so.

"Didn't you say last night to a man who came to see you something about Evelina Bell?"

After some hesitation Miss Harvey admitted that a man had come to see her last night and served here with the subpoens of the Committee. She said she told him that there were lots of others in the business and she didn't see why she should have been called before the Committee. She mentioned Eveline Bell in that connection.

Mr. Boardman offered a copy of that letter.

Gen. Tracy called Mr. Dun to the stand for the purpose of proving that the original had been lost or destroyed.

Mr. Dun, silver-haired, florid and thin bearded, came to the stand in a Summer suit of gray. He testified in a weak, husky voice, but with positiveness.

He declared that he never received any letter from Wiman in answer to his of Jan. 12.

"I am quite positive. I have looked over all my papers and find no such letter or any record of it. I should remember it if there had been one." said R. G. Dun.

He Reproaches Dum.

The letter tells about the ventures on Staten Island and Mr. Wiman's efforts to save the investors in the Electric Company, including Mr. Dun, from loss, spoke hopefully for the future, and reproached Dun for urging him to bring these enterprises to success while restricting his resources for that work. He speaks of the alternative of "retiring from the firm," and perhaps of opening a rival house, as urged by friends anxious to put up the capital-not threateningly, but as, perhaps, the thing desired by Mr. Dun.

The fetter referred back to a disagreement between Dun and Wiman since Jan. 1, 1889, when the business agreement was entered into. Prior to that Wiman had a 20 per cent. interest. He thought, as the builder of the colossal business, he ought to have an increase of 5 percent, but got a decrease to 17 per cent. instead.

That difference of 8 per cent, would That difference of 8 per cent, would ust about be equal to the overdraft—r \$145,000—during the five years term I the agreement. The reference in the tter indicated plainly that in January, 56, Mr. Dun did know all about the

"Did you have any doubt about your ability to pay R. G. Dun all your obligations and indebtedness to him?" asked Gen. Tracy.

"Not the slightest."

"When you drew this Bullinger check had you any intention of defrauding R. G. Dun?"

Mr. Wiman's manner in textifying was that of a man crushed under a load of trouble. His voice was at times sad and mournful, and he told his story with the downright earnestness characteristic of him. He seemed to be perfectly free and frank.

A fire broke out at 7.50 this morning in Vernon Brothers & Co.'s big paper jobbing house, that fills a large part of the block bounded by Broadway, Duane, Pearl and Elm streets, and swept away more than a quarter of a million dollars' worth of property before it was placed under control.

A rumor was set affoat that a man after escape was cut off, but this lacks Spread with Magical Swiftness.

The spread of the fire was almost hose the blaze was in every window on Pearl and Elm streets, and was breaking through the roof near the Duane street front. The building was old and built without much regard to defense from fire. A system of large airshafts incased in wood offered both draught and fuel to the flames.

It looked for a time as though neighboring property could not be saved. The people in the big Edison Building across Elm street brought their own hose, and helped the firemen drench their roof and walls. In an hour, however, the fire was so far towards control that it became certain that it would not pass the bounds of the Vernon Building. The Vernon Building was well adapted to a destructive fire, and the wonder is that the blaze was confined to it. It was built on a ground plan resembling very much a large letter T, with fronts at 65 and 47 Duane street, 22 and 26 Elm street and 539 Pearl street.

Holmes & Driggs, brass dealers, the Johan Faber Lead Pencil Company and other concerns occupied the Duane and Elm street corner, while at the Pearl and Elm corner stood the building of the Moss Engraving Company, These, although beset with fire on two sides escaped with small damage.
